

Call for Papers

Workshop on Operations and Management Science

July 28 & 29, 2005 - Santiago, Chile

Conference Co-chairs: René Caldentey (rcaldent@stern.nyu.edu)

Andrés Weintraub (aweintra@dii.uchile.cl)

Program Committee: Victor Araman (varaman@stern.nyu.edu)

Victor Parada (vparada@dii.uchile.cl)

Pablo Rey (prey@dii.uchile.cl)

Gustavo Vulcano (gvulcano@stern.nyu.edu)

Conference Sponsors: Departamento de Ingeniería Industrial, Universidad de Chile

Nucleo Milenio Complex Engineering Systems

The workshop offers both practitioners and the academic community the opportunity to share the latest ideas in the application of Management Science practice to concrete operational problems in the service and manufacturing industries. The objective of the workshop is to stimulate the discussion on real-world business issues with high technical and academic content.

The conference committee invites interested researchers and industry practitioners to submit abstracts for consideration. Topics of interest include, but not limited to, the following.

- Supply Chain Management
- Manufacturing
- Logistics (Reverse)
- Natural Resources
- Risk Management & Operational Hedging
- Revenue Management
- Dynamic Pricing & Auctions
- Retail Management
- Health Care Applications
- Financial Engineering

The conference features plenary conferences and two parallel tracks that combine technical presentations and discussions on relevant operations management challenges. Speakers will be allocated 30 minutes for their presentations plus 10 minutes for Q&A. A short break will follow each session.

Important Dates:

Deadline for Abstract Submission: July 10, 2005

Final Program Schedule: July 20, 2005
